Nancy Shugart at TEDx Texas Tech 2014.

“Thank you so much for motivating and inspiring Southwest Airlines’ People Department during our annual Take Off Training Day! You provided us with not only inspiration but also practical information that will help us as we continue to enhance and develop our inclusive and diverse culture. Our values at Southwest Airlines are Warrior Spirit, Servant’s Heart and Fun-LUVing Attitude. Your courage, your humor and your ability to maintain perspective truly exemplify these values we call Living the Southwest Way. We received extremely positive feedback from our Team and I can’t thank you enough for spending the day and evening with us. You and Porsche gave us so much more than we ever could have expected—courage and inspiration to not let obstacles stand in our way. If I can be a reference for you, please let me know. I will recommend you highly!”

“Oh my word!!! Oh my gosh!!! You had me and the entire audience mesmerized throughout your speech. Everyone was listening intently because you were interesting and funny. You brought our emotions to the surface. You blew me away with your speech! I got goose bumps several times throughout it. Your sense of humor, enthusiasm, message, and storytelling are the pinnacle of public speaking.”
